

Travel Nurse Pledge

As a travel nurse I will rise with the sun
Treat the unruly
Advocate for the neglected
Comfort the scared
And live the life of a healer

I will drive with my windows down
Find the perfect skipping rocks
Follow the faintest trails
And collect new friends

I will dive into the local culture
Find out what makes people tick
Eat where the old-timers eat
And make each new town my own

I will hone my skills
Explore settings beyond the norm
Broaden my perspective
And make each new treatment my own

I am a travel nurse
I stay out of the ruts because
My life and my career are constantly in motion

And wherever I go, I feel like I've arrived
